Introducing Hands-off Tools to Help You Stay in Business During Covid-19

- Hands-off Door Handles
- Hands-off Door Openers
- Sneeze Guards (custom made)
- Surgical Mask Band for Ear Comfort

Do Less Harm, Use Your Arm

- ♦ Door handles are one of the most germ infested objects that we touch everyday.
- ♦ Our hands-off door handles are designed to eliminate the need to physically touch any doors while entering or exiting a building.
- ♦ They can also be placed on refrigerators and coolers found in many gas stations, grocery stores and other retail stores.

About BASES of Virginia

Bases of Virginia is a Small Woman Owned Business that was formed in 2008 to manufacture assessment tools for individuals with disabilities.

They manufacture hands on assessment products that are used in rehabilitation centers and are sold internationally.

In response to the Covid-19 crisis Bases was able to switch its manufacturing of work samples to devices to assist other small businesses with reopening safely.

For Additional Information about BASES please visit our website at www.basesofva.com.

Price List

- ♦ No-Contact Door Handle -\$45
- ♦ No-Contact Door Opener -\$10
- ♦ Surgical Mask Relief Bands -\$5
- ♦ Sneeze Guard –24x18 \$145
 - 24x24 \$165
 - 24x34 \$190
 - 32x48 \$242

No-Contact Door Opener

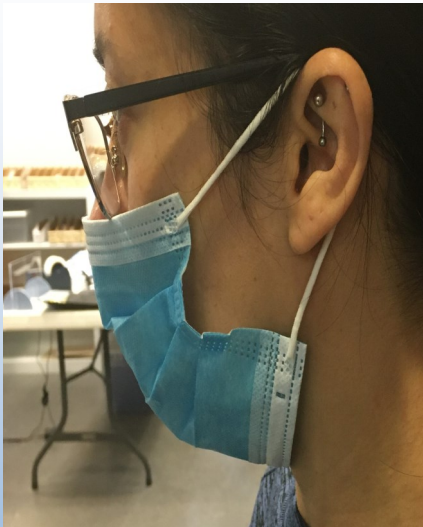

- ♦ By using our no-contact door opener you can avoid contaminating yourself and others.
- ♦ This tool is used to open doors and the front piece can be used to press pin pads, elevator buttons, light switches, and even touch screens.

Surgical Mask Band for Ear Comfort

- ♦ Surgical mask bands are designed to be used with any type of surgical mask. They provide relief to pressure that is put on the ears.
- ♦ These bands also provide greater security with the clips on both sides fastening the surgical mask in place.

Sneeze Guards

- ♦ These clear plastic shields allow people to maintain a safe distance while interacting with others during a purchase.
- ♦ We offer standard sizes, but can custom design to meet your work needs.
